

Hey you!

I suppose...You, like many before, have fallen for my charms and came here to admire me.

Well, I get it!

You will find everything about me and my two dads, my dad and my papa, who studied non-stop for weeks to build this site according to my exact specification.

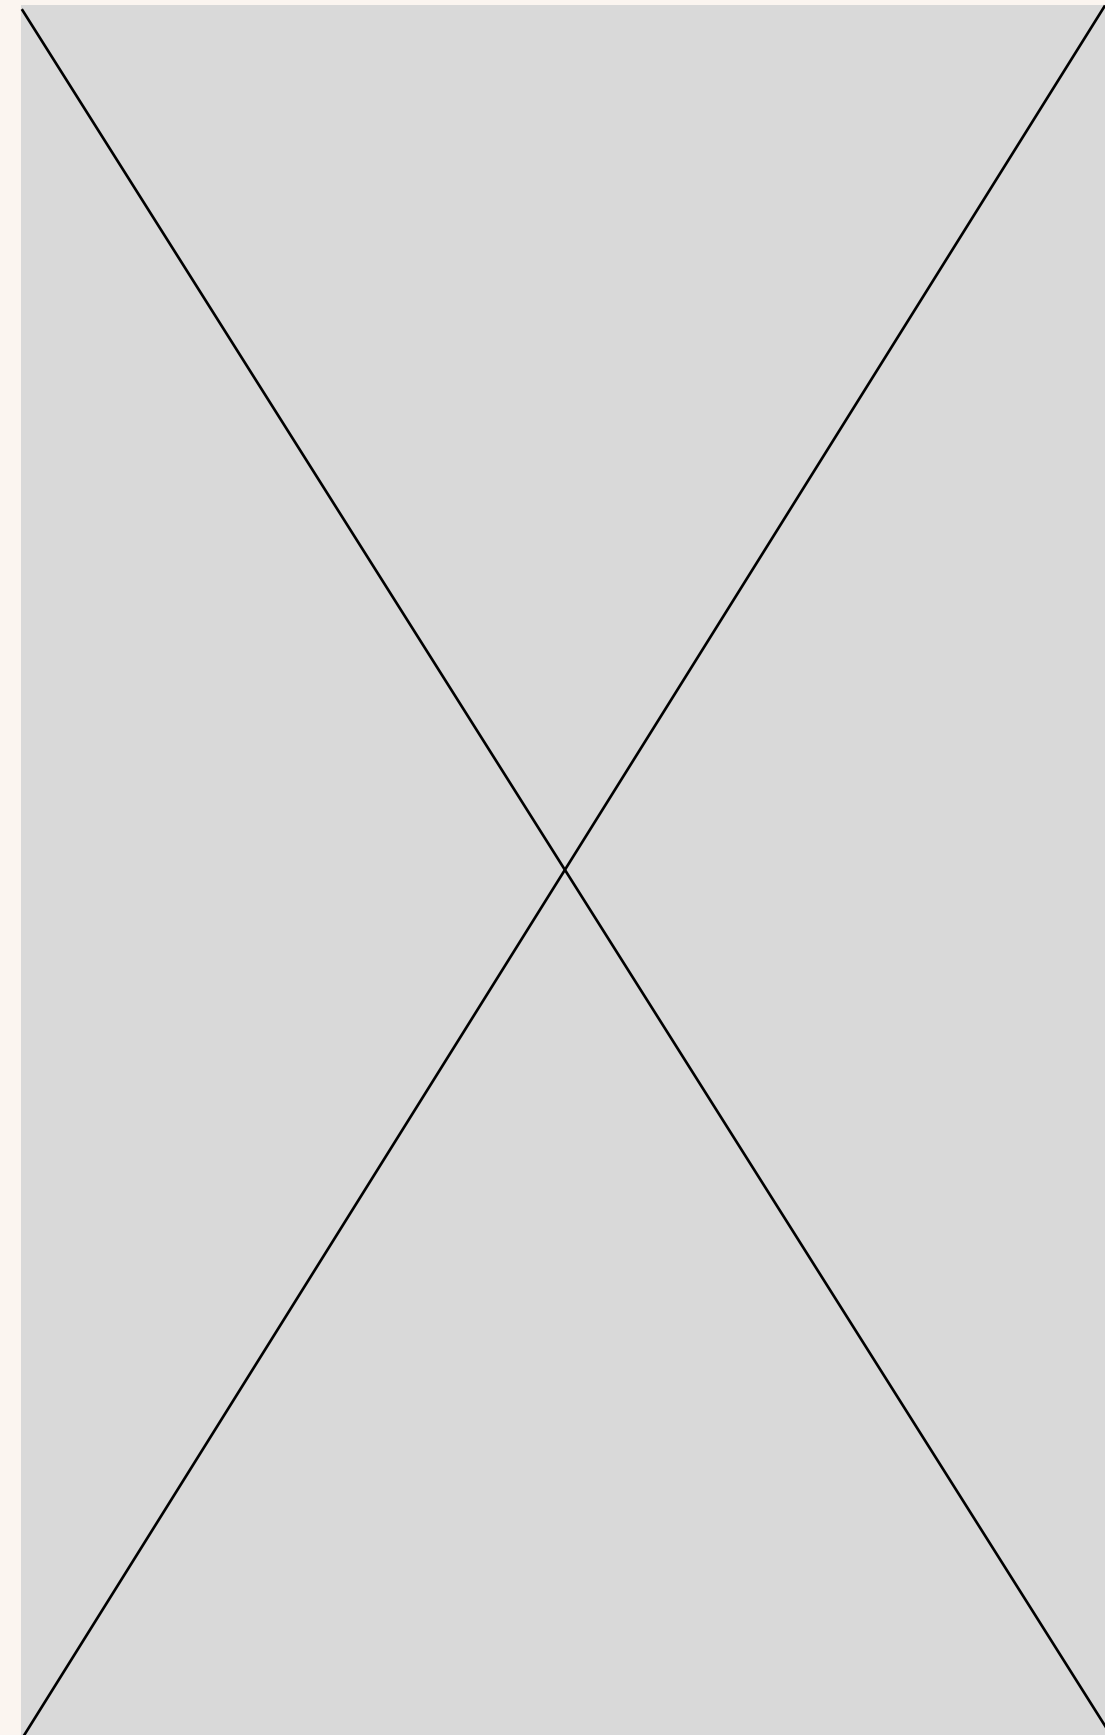

I wouldn't say that I'm the most beautiful and blessed cat in the world, but who are comparing anyway?

So if you feel like weeping tears of envy in a quivery heap at my paws, then by all means, check out all the pages.

I mean, you don't deserve to enter this site...but here we are.

So whatever.

Enjoy?

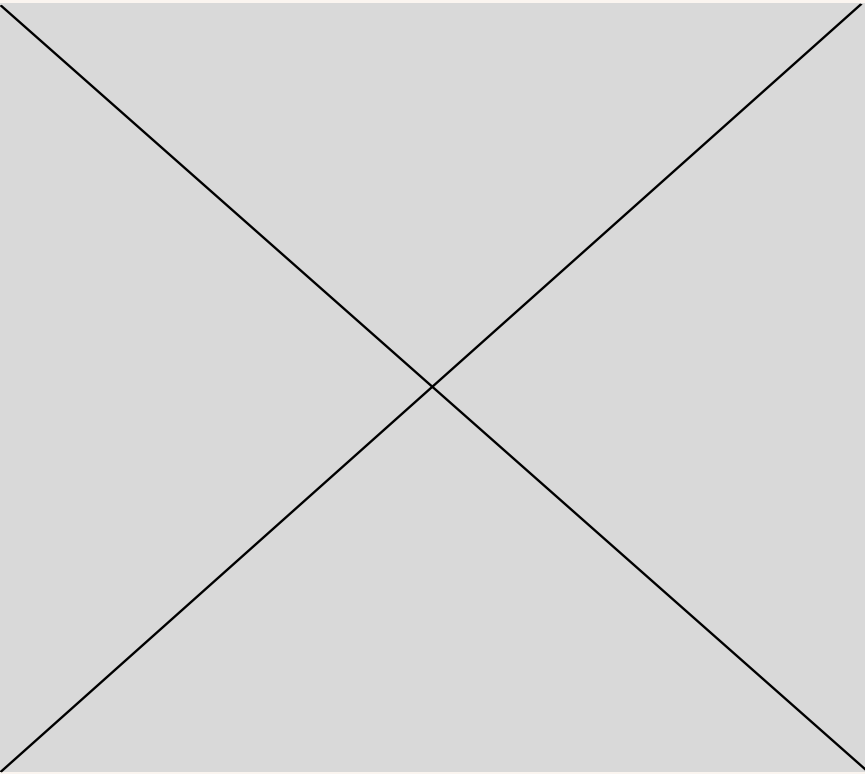

My Dad

My dad is a videographer and photographer.

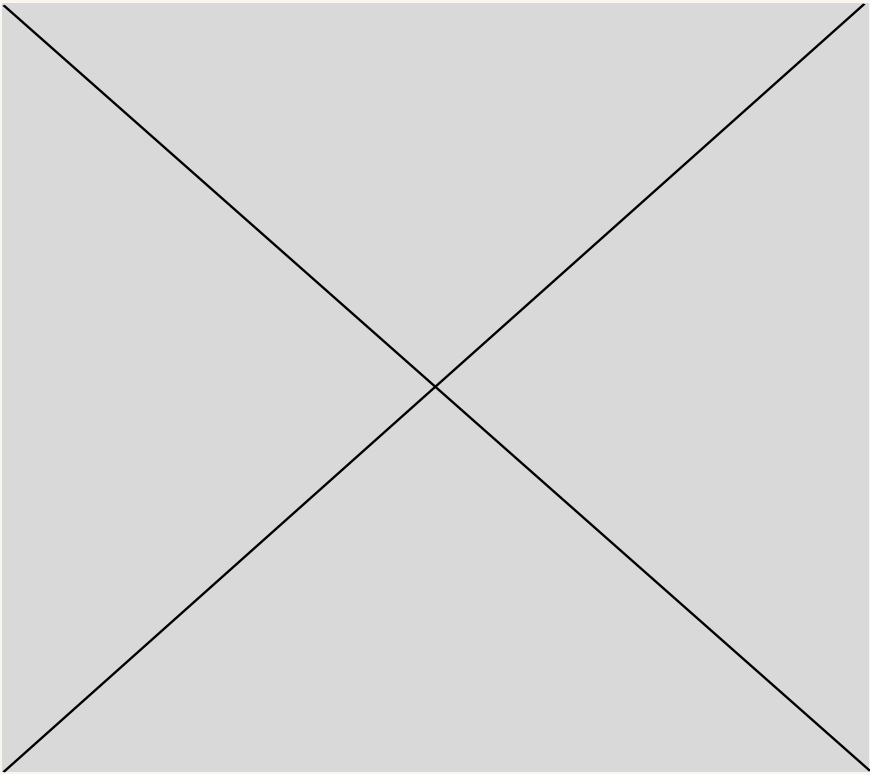

He has 10,000 books. He chugs coffee by the liters. He likes the great outdoors, which entices me, but I don't like witnessing strangers constantly melting at my very presence.

My dad loves taking pictures of my favorite food, not too bad don't you think?

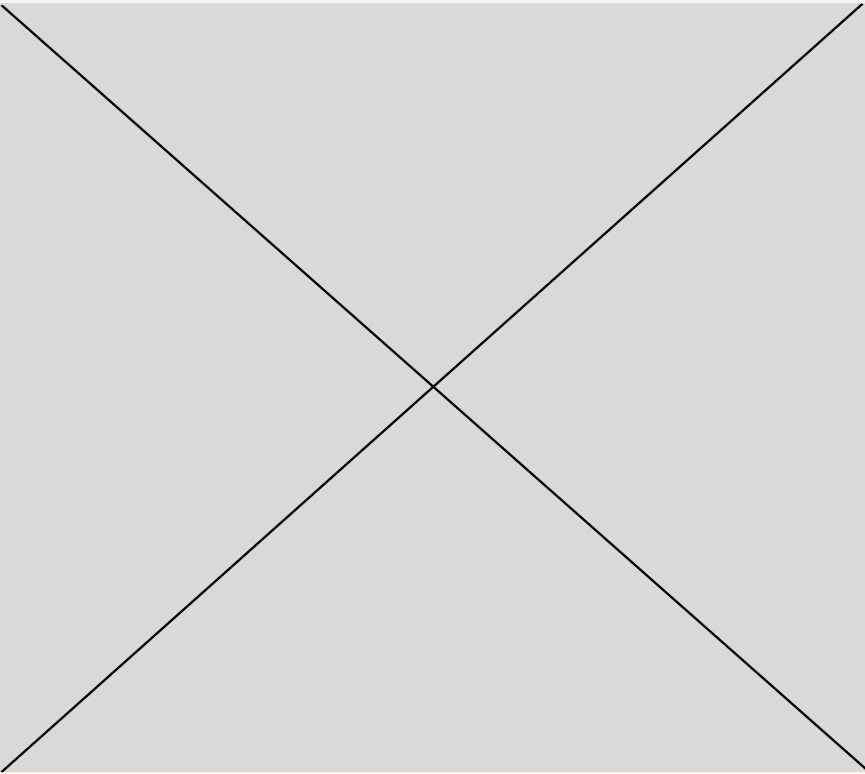

Although his favorite activity is taking pictures of me! But who can blame him?

My Papa

My papa is one of the weirdest human servants. He does not know what to do with his life, so he became obsessed with me. Here are some of the things he did:

- [He writes sentimental stuff about me](#)
- [He draws me on an iPad](#)
- [He paints me on his computer](#)
- [He paints me in his sketchbook](#)
- [He even wrote a song and sing about me](#)

It’s just a bit too much at times. But again, who can blame him?
